THE FAIR WRANGLE.

SAN DAVIS REPLIES TO THE GAZETTE.

A Few Facts for the Consideration of the Public.

San Francisco, Dec. 14.
TO THE MORNING APPEAL:—I notice in the Reno Gazette some statements made by Mr. James Yerington relative to the concession of 7,500 feet of ground to the State of Nevada. As there appears to be a great deal of misunderstanding relative to this matter I shall briefly survey the facts in the case.

In the first place the concession of 150,000 square feet of ground was granted by the Midwinter Fair Commission to San Davis. (See records of the Midwinter Fair Committee.)

After the granting of the concession Governor Colcord applied to me for space for the Nevada exhibit, saying that the Midwinter Commissioners could only let them have a space 40x40 feet for \$1800. I consulted my associates and we agreed to let Nevada have 7,500 square feet of space for \$1,000. The Governor returned home saying he wanted to see the Board before making a definite answer. I waited several days and as other parties wanted space I wired him for an answer and he replied by telegraph asking me to hold the proposition open for a few days, which I did.

Meanwhile Richard Foote the actor secured 7,500 square feet adjoining the South Drive.

Messrs. Evan Williams and M. D. Foley then came down and opened negotiations on behalf of the State for the space. Having looked over the ground they were anxious to have the same location secured by Mr. Foote, as they considered it more advantageous than the frontage on the left. Mr. Foote very courteously gave up the space and moved over to the left.

Messrs. Williams, Foley, Mr. Love, Mr. Foote and myself then met at the Palace Hotel and the negotiations for the space were continued. Messrs. Williams and Foley thought it would be an excellent idea for the '49 camp to donate the land. It was suggested that such a course would be greatly appreciated in Nevada etc. I concluded that it was time enough for impecunious editors to begin donating to the Fair when millionaires and bankers got through and so the proposition was dismissed. They finally proposed to erect an old quartz mill for an exhibition building, and on the ground that such a building would be in keeping with the Camp, asked us to knock off \$500. The proposition was accepted and so the bargain was made on that basis.

The two Nevada representatives pleaded the poverty of the State and I asked Mr. Foote if he was not willing to go to Nevada, play one week, and donate the net proceeds to the Nevada Fair fund. He said he would do so and made arrangements at once. He was very enthusiastic in the matter and Messrs. Foley and Williams returned to Nevada.

Two weeks later Mr. Foote and his company arrived in Virginia City to open in Don Cesar de Bazar. No one met them at the depot, no preparations had been made for hotel accommodations and they spent half a day getting located.

I found that the committee of arrangements consisted of three people. Each one I called on said that the "other two" were working the thing up.

We turned to Messrs. Fannery and Kinkaid house on Chestnut and they sold over \$100 worth of tickets in half an hour. After paying expenses Mr. Foote turned over \$120 to the committee for the Fair and proceeded to Carson.

Persons who had agreed to donate their services came round after the show and wanted their money; they got it.

At Carson we turned over \$200 clear Mr. Foote retaining \$103.25 if I remember right, and paying the bills.

Parties who had donated their services as we supposed came to Mr. Foote for money, one man charging more than double what he usually received.

They were paid. The Ormsby, Arlington and St. Charles donated their services and so did Charley Bray, Mr. Meder and others whose names I cannot now recall.

Mr. Foote and his violinist gave free performances at the Prison and Orphans Home. Although "it was

not so nominated in the bond." At Reno the papers were very cold, but one could not blame them as the Committee there had informed them that they should not have any passes to the show.

Mrs. Foote learning this called on the newspapers and furnished them with passes and apologies.

The receipts seemed to me to justify the guarantee I made to the Committee that we would donate to the State the full \$500.

I found however afterwards that this could not be done if the R. R. fares of the Company were paid back to San Francisco.

The \$100 dollars advanced to Mr. Foote for the fares from San Francisco to Reno we also considered as due the Nevada Fund.

So altogether we turned over \$600 cash in the three towns and I gave my note for \$100 to the State Board of Agriculture to enable the Company to get home.

The Gazette presented a bill of \$7.50 for advertising and was the only paper which did present a bill.

As I left Carson I received a bill of \$32 from the V. T. R. R. Co., for 8 round trip fares of the Company from Reno to Carson and return.

I thought the State Board of Agriculture might be willing to pay this so I left the bill with them. If they do not feel like paying it I will do so. The statement in the Gazette that Mr. Yerington had a discussion with Messrs. Foote and Davis in San Francisco about the Nevada concession in which he brought them up with a round turn, is probably a misstatement of the Gazette, because when Mr. Yerington met the Board on Monday he had not met Mr. Foote in San Francisco.

He had never seen Mr. Foote until he was introduced to him by Colcord at his residence on Sunday. Messrs. Love and Hahn deny that they made any such statement to Mr. Yerington as asserted in the Gazette.

Any such statement made by them would have been quite uncalled for as the '49 Mining Camp Co., did not in reality own any portion of the concession until last Tuesday when it was deeded to me by myself the original concessioner in consideration of a certain amount of the capital stock.

I understand that the State declines to make good the agreement of Messrs. Williams and Foley, that in consideration of a reduction of \$500 a quartz mill should be erected.

Well, in that event we will close all discussion on that score by doing as the Irishman did when his creditor threw off half a debt by agreeing to throw off the other half.

In a contract, signed by me to the State Board of Agriculture, I transferred 7,500 (or 10,000, I forget which) square feet to the State. Nothing was said about running cafes, but as the Board thinks it a good idea and a money making idea, my associates in the '49 camp will make no objection, although it will be an opposition to our own restaurants run in the camp.

It is claimed that the ground lease carries everything with it. Believing this to be good law, we will not dispute the claim.

We all want harmony and a good fair, and if given half a chance, the '49 camp will do its share.

The State got, (for nothing, mind you,) space worth over \$16,000 at the ruling rates, and Mr. Foote, after playing a week in Nevada, to pay for Nevada's space, (and not even receiving a vote of thanks for it,) offers Commissioner Yerington 7,500 square feet of space, on the roof of his theatre, free of charge. He has also ordered a private box built for the Governor of Nevada, to be used by him, free of charge, during the six months. Does this look as if Mr. Foote was trying to make trouble?

As for the money I made out of the Foote engagement, I will say that I laid my business aside, put in a week's time, did not receive a cent of salary, contracted a severe cold, which laid me up a day in bed, and am out nearly \$150.

I understand that the Legislature will be asked to pay back the money advanced by private individuals.

Mr. Foote desires me to thank the patrons of his six performances, for their attendance in behalf of the Fair, and to also state that any money donated by him to the Fair fund is a free gift, with no strings to it.

I wish to state at the same time that the \$100 donated by me goes with Mr. Foote's money "with no strings to it," and we shall never ask the Legislature to pass any relief bills.

If some of the newspapers who are

criticizing Mr. Foote will make a similar donation to us, they will be better qualified to criticize him than now.

With this explanation, which I regret was necessary, I hope the people of Nevada, all along the line will quit this petty wrangling and begin getting their exhibit in line. Yours etc.,

SAM DAVIS.

From Empire.

Empire Dec. 12th 1893.

There is considerable prospecting going on South East and North of here at present. Arthur Morris found a piece of float which contained considerable free gold between the Brunswick and Vivian Mills about a week ago.

Mining locations are being staked off without regard to whether there is any quartz or not. Every old abandoned shaft or tunnel has been relocated from old Springs North of Empire to the Santiago East, and from the Brunswick to the Wood Chopper South.

Logan and Crow are running a drift on a ledge in Lime Kiln Canyon.

What the ledge carries I don't know but a man at the Brunswick told Arthur Morris that the ledge contained pure steel. Arthur said "you mean iron" "no sir pure steel" was the reply.

Jim Wiggins is getting ready to entertain his friends and his enemies. He received one six horse load of fine fat turkeys from Mason Valley to-day, and expects two more loads next week. He says that his ad. in the APPEAL in November gave his business such a boom that he has not been able to attend to it all. But he is getting things in shape rapidly. He sold an interest in his meat market to his brother Will, who will superintend that establishment hereafter, leaving Jim at liberty to attend to his other interests. He will let everybody know through the APPEAL how he is going to entertain on Christmas.

Sam Longabaugh has several teams hauling wood from here to Silver, Gold Hill and Virginia. The river is rising slowly but fishing is good at the Mexican dam yet. White fish are very plentiful this autumn.
